

Best Practice 1

(Session2023-2024)

Title: Programs for Increasing Environmental Consciousness: Strengthening Ties with Nature

Objectives -

- To create environmental consciousness among students and teachers
- To create environmental consciousness among villagers of the surrounding villages
- To protect the flora and fauna of the region
- To get the solution of climate change
- To clean the ponds and river of the region

The context: Geographically, college is located in a rural and backward area. More than 95% students reading in the college belong to SC, ST and OBC categories. Students are inspired to fulfill the objectives mentioned above. Most of the students belong to farmers' family. They are well familiar with the climate of the area, with the fertility of the land, with the changes in weather and with the environmental pollution.

The Practice – The students of the college take active part in the extension activities organized by NSS, YRC, and other departments of the college.

1. Some students, Aakash, Neetu Sahu, Raja Dhruw, B.A-I, B.Sc.-III Karan. B.Com.-II went to the bank of Maniyaari River flowing nearby the college. They collected the garbage scattered on the bank and asked the people not to throw any garbage on the bank.
2. Some students of college Santosh, Chandra Prakash, Tukeshwar, Naveen- B.A-II Leena, Namini Negi, Pallawi, Anjali Ratre-B.Sc.-I, Neha Tarun, Namrata, Sanjana- B.Sc.-II, B. Com-II- Harshraj, Pintu Prasad,, Shailendra, Ajy Manhar went to the pond of Sargaon. They collected the plastic bags, water bottles; leftovers scattered near the pond and requested the people to keep the pond neat and clean.
3. Some students, Priya Manikpuri B.SC.-III, Divya B.Sc.-II, Bimila, B.A.-II, Geeta, Santosh, Bharti, went to the pond of Salfa Village. They collected the dirty materials; rotten things scattered near the pond and requested the people not to make the pond dirty and polluted.

4. Some students, Rohni B.SC.-III, Ritu B.Sc.-II and Durga B.A-III went to the Mohda Village. They planted some trees and requested the people to plant trees on the unused land and protect them.
5. Some students, Shivam B.SC.-II, Sita B.Sc.-III and Neha B.A-II went to the Bhojpuri Village. They asked the villagers to protect the flora and fauna of the village and not to kill any animal or bird.

Outcome of the entire programme:-

STRENGTH

- The bank of Manyari River became neat and clean. People stopped throwing garbage on the bank.
- The pond of Sargaon became clean and attractive. People stopped throwing the plastic bags, water bottles, and leftovers near the pond.
- The pond of Sargaon became clean and beautiful. People stopped throwing the dirty materials and rotten things near the pond.
- Some people of the Kakedi village planted some trees on the unused land and are protecting them.
- Some people of the Bhojpuri village are protecting the flora and fauna of the village and asking others not to kill any animal or bird.

WEAKNESS

- As the students come from remote villages, they get very limited time to work on such activities.
- Most of the students belong to poor family. They don't have sufficient fund to carry out such activities.
- Due to non-availability of sufficient fund the college is not able to help students to carry out such activities.

OPPORTUNITIES FOR IMPROVEMENT

- If Chhattisgarh government allocates sufficient grant for carrying out extension activities in the villages nearby the colleges, it will be highly beneficial for students and villagers.
- If NGOs of Sargaon area and Mungeli District allocate sufficient grant for carrying out extension activities in the villages nearby the colleges, it will be highly beneficial for students and villagers.
- If the Gram Panchayats of Sargaon area allocate sufficient grant for carrying out extension activities in the villages nearby the colleges, it will be highly beneficial for students and villagers.

Problems Encountered and Resource Required:-

- We have faced some problems initially to motivate the students to carry out cleanliness drive on the banks of the River Maniyaari flowing near the college.
- We have faced some problems initially to motivate the students to carry out cleanliness drive in the ponds of nearby villages.
- We have faced some problems in the beginning to inspire the students to protect the flora and fauna of Sargaon area.
- We have faced some problems initially to motivate the villagers to carry out cleanliness drive on the banks of the River Maniyaari flowing near the college.
- We have faced some problems initially to motivate the common people to carry out cleanliness drive in the ponds of nearby villages.
- We have faced some problems in the beginning to inspire the local people to protect the flora and fauna of Sargaon area.
- If Chhattisgarh government allocates sufficient grant for carrying out extension activities in the villages nearby the colleges, it will be highly beneficial for students and villagers.
- If NGOs of Sargaon area and Mungeli District allocate sufficient grant for carrying out extension activities in the villages nearby the colleges, it will be highly beneficial for students and villagers.
- If the Gram Panchayats of Sargaon area allocate sufficient grant for carrying out extension activities in the villages nearby the colleges, it will be highly beneficial for students and villagers.
